

COMPANY PROFILE

**“PROTECTING STRUCTURES TODAY,
ENSURING DURABILITY FOR TOMORROW”**

ABOUT US

AW Waterproofing isn't just a waterproofing service—we are your building's first line of defence. Your property is a valuable investment, and shielding it from water damage, heat, and environmental stress is crucial for long-term performance. With our cutting-edge waterproofing and insulation technologies, your structure stays strong, efficient, and built to last. At Waterproofing Solution, we don't just protect buildings—we enhance their durability, extend their lifespan, and ensure lasting peace of mind.

At AW Waterproofing, we are dedicated to providing world-class waterproofing and insulation solutions powered by global expertise. As one of Pakistan's leading importers of polyurethane and epoxy systems, we partner with renowned international manufacturers such as GLCC (KSA) and Desert Dry (Sharjah) to bring the latest advancements in building protection technology to our clients. Our skilled team receives continuous professional training, ensuring that every project meets the highest standards of quality, durability, and environmental responsibility. With AW Waterproofing, you're choosing excellence built on innovation, expertise, and trusted global collaboration.

VISION

To become the most trusted and respected name in waterproofing and insulation—setting new industry standards for quality, sustainability, and customer satisfaction.

MISSION

To deliver innovative, high-performance waterproofing and heat proofing solutions designed specifically for Pakistan's unique environmental conditions and structural challenges.

CORE VALUES

Excellence

Consistently delivering superior products and services that go beyond industry standards.

Innovation

Adopting and implementing the latest global advancements in waterproofing and insulation technology.

Sustainability

We prioritize eco-friendly materials and practices to promote long-term environmental responsibility.

Customer Commitment

Delivering personalized solutions while ensuring exceptional customer support and satisfaction.

Safety First

Ensuring structural integrity and safeguarding human well-being in every solution we provide.

WHY CHOOSE AW WATERPROOFING?

→ 5+ Years of Experience

Delivering expert, cutting-edge solutions in waterproofing and insulation.

→ International Standards

Offering certified products and application methods that adhere to global benchmarks.

→ After-Sales Service

Providing dedicated maintenance programs and expert consultation to ensure long-term satisfaction.

→ Proven Track Record

Trusted by leading clients such as PepsiCo, Eastern Dairies, Two Star Sugar Industry, Jilani Group, Izhar Group, Nishat, and many more.

→ Comprehensive Services

Providing end-to-end waterproofing, heat-proofing, and flooring solutions for residential, commercial, and industrial projects.

→ Safety Commitment

Delivering safe and durable solutions that protect both structures and occupants.

→ Eco-Friendly Solutions

Committed to sustainable, non-toxic materials for environmentally responsible projects.

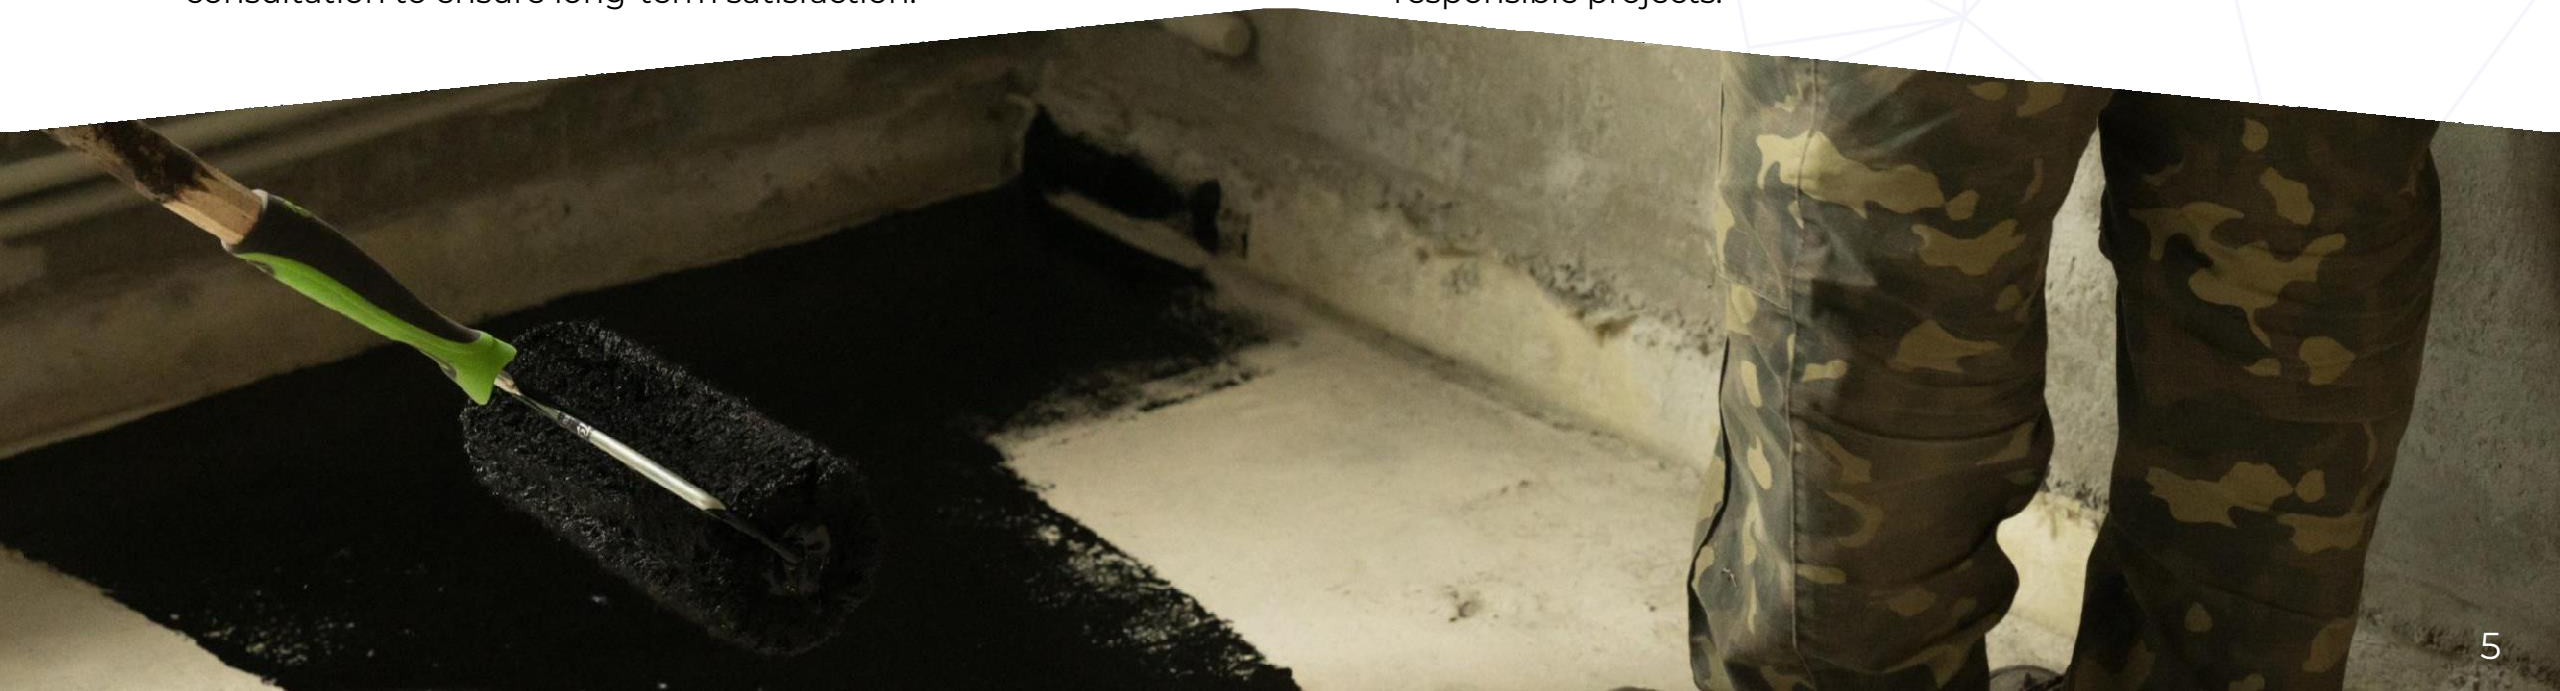

TABLE OF CONTENTS

01

OUR PRODUCTS

- Poly Seal-111
- Elasto Seal-700
- Bitu Seal-101
- Waterproofing Flex-300
- AW Waterproofing Cem Guard-900
- PU-400
- SBR Bond-500
- Play Coat-212

03

INSULATION SOLUTIONS

- Polyurethane Spray Foam (Insulation)

02

OUR SERVICES AW WATERPROOFING

- Polyurethane Waterproof Coating
- Roof Garden Waterproofing
- FRP h GRP Waterproofing
- Structural Waterproofing
- Membrane Waterproofing
- Polyurea Waterproofing
- Injection Waterproofing
- Expansion Joint Sealant
- Waterproofing Maintenance Services

04

FLOORING SOLUTIONS

- Sports Flooring
- Epoxy Flooring
- PU Flooring
- Line Marking

OUR PRODUCTS

Poly Seal-111

A high-performance, polyurethane-based AW Waterproofing engineered for superior adhesion, exceptional elasticity, and long-lasting durability. Perfectly suited for rooftops, terraces, and concrete surfaces exposed to extreme weather conditions, ensuring reliable protection and enhanced longevity.

Elasto Seal-700

A flexible, high-performance AW Waterproofing with outstanding crack-bridging capabilities. Ideal for flat and sloped roofs, balconies, and water-retaining structures, providing durable protection against water ingress and structural stress.

Bitu Seal-101

A high-performance AW Waterproofing that merges the flexibility of bitumen with the strength and durability of polyurethane. Perfect for foundations, retaining walls, and below-grade structures, providing long-lasting protection against water penetration.

AW Waterproofing Flex-300

A high-performance AW Waterproofing with UV resistance, excellent adhesion, and breathability. Ideal for exposed roofs, balconies, and wet areas, providing durable protection while allowing the substrate to breathe.

OUR PRODUCTS

AW Waterproofing CEM GUARD-900

A high-performance, cement-based AW Waterproofing that penetrates and seals concrete surfaces, providing reliable protection against water ingress. Ideal for basements, water tanks, and tunnels, ensuring long-lasting structural integrity.

PU-400

A durable, high-performance sealant designed for expansion joints and structural gaps, providing excellent flexibility and weather resistance across a wide range of temperatures. Ensures long-lasting protection and structural integrity.

SBR Bond-500

A high-performance latex that enhances bond strength and waterproofing in cementitious applications. Perfect for repair works and as a plaster additive, ensuring durable and long-lasting results.

Play Coat-212

A heavy-duty, high-performance coating designed for sports courts and playgrounds, providing slip resistance, vibrant colour retention, and durable weatherproofing for long-lasting performance and safety.

OUR SERVICES WATERPROOFING SOLUTIONS

Structural Waterproofing

01

A durable, long-lasting waterproofing system designed for concrete roofs, terraces, and foundations, providing complete protection against water ingress with a seamless finish.

Roof Garden Waterproofing

02

Tailored waterproofing systems designed to prevent leaks and protect rooftop gardens, ensuring long-lasting performance and durability.

FRP & GRP Waterproofing

03

Durable, high-performance AW Waterproofing made from fiberglass and glass-reinforced plastic, ideal for industrial and marine applications, providing long-lasting protection against harsh environments.

Structural Waterproofing

04

Comprehensive waterproofing systems designed for basements, retaining walls, and concrete structures, ensuring maximum durability and long-lasting protection against water ingress.

Membrane Waterproofing

05

High-performance waterproofing membranes available in bituminous, PVC, and TPO options, providing reliable, long-lasting protection for a variety of surfaces and applications.

OUR SERVICES WATERPROOFING SOLUTIONS

Polyurea Waterproofing

06

Advanced, high-performance polyurea solutions designed for extreme durability in industrial applications, offering rapid curing, seamless protection, and long-lasting performance.

Injection Waterproofing

07

High-pressure polyurethane and epoxy injection techniques designed to seal cracks and leaks in concrete structures, providing durable, long-lasting structural repair.

Expansion Joint Sealant

08

High-performance, flexible polyurethane sealants that prevent water ingress while accommodating structural movements, ensuring long-lasting protection and durability.

Waterproofing Maintenance Services

09

Regular maintenance and inspections designed to extend the lifespan of waterproofing systems and prevent costly repairs, ensuring long-term protection and performance.

INSULATION SOLUTIONS

Polyurethane Spray Foam (Insulation)

An advanced insulation system designed to minimize heat transfer and enhance building sustainability, improving energy efficiency and comfort.

FLOORING SOLUTIONS

Sports Flooring

Durable flooring systems in epoxy and polyurethane designed for sports courts, gymnasiums, running tracks, and playgrounds, offering long-lasting performance, safety, and aesthetic appeal.

Epoxy Flooring

Seamless, high-performance epoxy coatings designed for industrial and commercial floors, providing enhanced durability, chemical resistance, and improved aesthetics.

Polyurethane Flooring

Durable polyurethane flooring solutions that provide superior impact resistance and long-lasting performance, ideal for high-traffic and demanding environments.

Line Marking

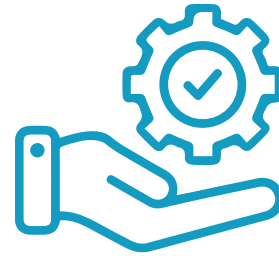

Durable coating solutions for roads, warehouses, and parking areas, providing clear, long-lasting markings that enhance safety and organization.

AFTER-SALES SUPPORT & CONSULTATION

Dedicated Customer Service Team

Expert guidance, troubleshooting, and ongoing support provided after installation to ensure optimal performance and long-term satisfaction

Long-Term Maintenance Plans

Ensuring your waterproofing and insulation investments remain effective, providing reliable protection and long-term peace of mind.

Technical Consultation

Helping you select the best waterproofing and insulation solutions tailored to your specific structural needs, ensuring optimal performance and durability.
